

🌸 Hello Spring! (Pozdrav proljeću!) 🌸

Učenici naše škole 1.a razreda i njihova učiteljica Ivona Brković pokrenuli su, u veljači, s jednim razredom iz Španjolske međunarodni eTwinning projekt Hello Spring. Učenici su kroz projektne zadatke ponavljali obilježja proljeća, obilježili Dan planete Zemlje, pripremali voćnu salatu od proljetnog voća te na kraju projekta dobili zasluženu diplomu. Kroz projekt učenici su upoznali kulturu i tradiciju drugih partnera u projektu te stekli bogato iskustvo koje im ostaje za cijeli život.

Hello Spring!

FEBRUARY: in the digital tool Genially, each class will insert a typical flower of its country or region to form a bunch of flowers. When clicking on each flower the different classes will introduce themselves and the flower chosen. **MARCH:** in Google Slides we will create a virtual gallery where the teachers will upload pictures of their pupils. These pictures will be related to spring landscapes of famous painters in each country. **APRIL:** we will celebrate "The Earth Day". Each class will write a short poem in its own language (and the translation to English to understand them) about the Earth Day. At the end, we can create a digital book with all the poems. **MAY:** each class will present an easy recipe with typical products or fruits of spring in our countries, and we will share a video or photos of the elaboration. **JUNE:** Project dissemination and evaluation
